Forecast for Monday 14 Jun 2021

Weather: Monday will see a few showers, most of these light and mainly across Argyll, Lochaber and the Trossachs. More northern ranges will be cloudy at times, best of the sunshine across the Arran, Jura and southern parts of Kintyre. Windy.

Chance of cloud free mountain/hill tops above 800m: 70%

Visibility: Generally very good with good air clarity. Becoming poor in areas of cloud down to 700 metres in showers, these chiefly across the north of the region.

Met Office Aberdeen Meteorologist's View
Much colder air will be in place on Monday with significant wind chill, especially under cloud cover. Summit westerly gales.

Forecast for Tuesday 15 Jun 2021
Weather: Dry in the morning. Outbreaks of rain developing in the afternoon across Lochaber, turning persistent and more widespread through the evening, some heavy rain expected in the northwest. Windy with summit gales developing through the afternoon, significant wind chill.

Maximum wind: Southerly means of 30 mph with gust 50 mph, perhaps as high as 60 mph later in the day on the higher tops.

Chance of cloud free mountain/hill tops above 800m: Very little in the way of hill fog until late afternoon, then some patchy low cloud developing thereafter especially in the west. Becoming extensive in the evening.

Visibility: Generally good although some haziness possible in the air. Poor in patchy low cloud down to 700 metres later in the afternoon, with cloud down to 500 metres becoming extensive through the evening.

Temperature: **Glens:** Plus 4 rising to 16 Celsius
At 800m: Plus 6 Celsius
Freezing level: Above summits
